Provides Search Engine Optimizer

Estimation on Budget & Timeline

Manages Post-Shipment Maintenance of Website

Goals:

- A central social hub website for Brooklyn Film Festival, this allows people to access and share upcoming events/movies occurring at the festival.
- Website will include an About section to summarize new customers what to expect at the film festival.
- Movie list to show and encourage viewers to sign up for the festival.
- News section to display city and park news to create a closer community with the public.

- Announcement section to let viewers know the latest news regarding the festival, this can include specific special movies and/or special events.
- A sign-up section as the festival has a 5,000-person limit.
- A section of directions to guide viewers to the park.

Budget:

Non – Recurring:

Domain Name:

www.brooklynfilmfestivals.com - \$0.99 (1 year)

www.brooklynfilmfestivals.org - \$12.99 (1 year)

www.bbpfilms.org - \$7.99 (1 year)

Recurring:

Hosting/Server: \$29.94 (\$4.99 per month, 6 months)

Web Development: \$2,250.00 (\$15.00 per hour, 6-hour day, for 25 days)

SEO Wage: \$480.00 (\$12.00 per hour, 4-hour day, for 10 days)

Total (6-month span: April - September): **\$2,761.00 - \$2,773.00** (depending on the domain name chosen)

Timeline:

Project starts in April to allow social media and community hype build up the anticipation of the festival that occurs in August. This allows for approximately 1 month to build and finalize the website. And then 3 months for social media to take effect and build a viewing crowd.

April 1 st – April 6 th	Material Request / Initial Discussion with Client
April 9 th – April 13 th	Material Received / Start of Website Development
April 16 th – April 20 th	Continued Development of Website & SEO
April 23 rd – April 27 th	First Test / Adjustment / Tutorial with Client
April 30 th – May 5 th	Final Adjustment / Website Launched
May 7 th – August 3 rd	Social Media Build Up / Website Maintenance
August 5 th	First Night of Film Festival

April 1st – April 6th: Material Request / Initial Discussion

- Scott requests all material from Jennifer Viala (pictures, social media links, starting news/announcements)
- Scott discusses basic website layout and expectations to Jennifer to build a starting foundation on the website wireframe and which domain name to be bought.
- Scott requests money for the initial purchase of the domain name & hosting service

April 9th – April 13th: Material Received / Start of Website Development

- Scott receives and confirms all needed material/funds previously requested to start the website from Jennifer
- Scott discuss the prototype wireframe website with Jennifer and adjusts according to feedback
- Scott starts rough draft of website offline (alpha stage of website)

April 16th – April 20th: Continued Development / SEO

- Scott buys the domain name decided by Jennifer and hosting service
- Scott uploads the prototype website online for future discussion
- Scott works on initial SEO for the website
- Continued work on website prototype

April 23th – April 27th: First Adjustments / Website Testing / Website Tutorial to Client

- Scott and Jennifer discuss about the initial website and request feedback for any specific changes
- Scott tests, explains, and demos to Jennifer on how to use the website to count the number of viewers possibly signing up, update festival news/announcements
- Scott requests for any future news to add to the website and to further optimize the SEO

April 30th – May 4th: Final Adjustments / Website Launched

- Scott changes website according to feedback received from the previous meeting with Jennifer
- Scott finalizes the website and ships out the final product to Jennifer

May 7th – August 3rd: Social Media Buildup / Website Maintenance

- Jennifer updates news/announcements as needed
- Social media builds up community about the film festival
- Jennifer (if needed) can request Scott for future additions to the website

August 5th: Event Day

- First day of the Film Festival!

Technical Specifications:

Domain Names:

- Brooklyfilmfestivals.com – long standard website name. Dot com websites are easy to remember.
- Brooklynfilmfestivals.org – usually used for non-profit organizations, .org not used much
- Bbpfilms.com – short and sweet, easier to remember as an acronym, can be used as a hashtag for social media hits (#bbpfilms)

Color / Theme Branding:

- Greyscale background of the Brooklyn Bridge to show the festival's location and the bring an old school black and white film era feeling.
- White font on dark background to provide contrast and ease of readability and further reinforce the greyscale theme.
- Two different fonts for the text to provide additional contrast to the website.
 1. Roboto Regular via Google Fonts
 2. Raleway Regular via Google Fonts

Social Media Suggestions:

#bbpfilms – as stated before, a shorter hashtag link will be easier to remember

#moviewithaview – site slogan / catchphrase. As the film festival is hosted a city park with the river and building lights as a backdrop

#brooklynfilms – as this is a city community event, this hashtag will bring citizens of Brooklyn and film lovers together

#filmfestival – many festivals occur around the world, best to connect your community with the rest of the network

#outdoormovies – as most of the new generation spend their time indoor, putting an outdoor interest can pique viewers that need a new environment to enjoy movies

Search Engine Optimization:

This is optimizing a website's features to allow it to be most favorable when people search on search engines such as Google. For Google's algorithm this includes:

- Good content that is easy to read
- Keywords for SEO Top Page results relate to the website
- Make sure the links on the websites are related to the content and to a minimum
- Keep the repetition of similar content to a minimum
